Posting Process

① Forms Submitted

Send the completed application form, as well as logo and image data to be displayed with your company description. (Gif or jpeg files, 150 pixels wide.)

② ID/Password Issued

Once your application has been received, an ID and password will be sent by mail to the supervisor named in the application.

③ Job Posting Preparation

Log onto the Japan Times Jobs Office administration screen and enter the job posting information at least two days before the post is scheduled to go up, and carry out the preliminary procedures for public posting.

④ Posting Begins

Once we have confirmed the content, the job posting goes up on the site.

Note: For Standard and Premium plans, basic information can be posted even before the Spotlight Company Report is completed.

Note: A separate form is required for "Global Companies in the Spotlight". Submission should be made one week before posting.

Note: Posting period is counted from the time basic information is first posted.

Note: The above describes the typical process. If the posting is urgent, please talk to one of our sales supervisors.

[Notes and Precautions]

- Posting charges cannot be refunded or returned, even if the posting or option is canceled.
- We reserve the right to refuse a posting if it violates the law, public standards of decency, our own advertising standards, or similar.
- We are not responsible for a posting or advertisement that fails to be listed due to natural disaster, a breakdown in communications infrastructure, or other unforeseen accidents beyond the control of our company.
